SUMMARY

Full-stack developer with 1+ year of production experience in React, Next.js, React Native, Node.js, MongoDB and PostgreSQL. Lead developer on five client platforms at Gravitones and frontend developer on Hike Cinema; 17 websites and 8 apps shipped. Uses Claude Code as an AI coding assistant on many builds, owning architecture, review and release.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, SQL | **Mobile:** React Native, Expo, Expo Router
Frontend: React, Next.js, Redux, TanStack Query, Tailwind CSS, Shadcn UI, Vite, GSAP, Framer Motion
Backend: Node.js, Express, REST APIs, OpenAPI, Socket.IO, JWT, RBAC
Databases: MongoDB, PostgreSQL, Redis, Firebase, Drizzle ORM
Cloud and Integrations: AWS S3, CloudFront, Razorpay, M-Pesa (Daraja), Google Maps, Zoom API, Cloudinary
Tools: Claude Code (AI-assisted development), Git, GitHub Actions, Postman, Apidog, Android Studio

EXPERIENCE

Software Development Engineer | Gravitones, Bhubaneswar, India | Oct 2025 - Present

Hike Cinema | Frontend Developer | Micro-drama streaming app for iOS and Android | May 2026 - Present

- Manage the React and Redux admin portal: built bulk episode upload with transcoding status, home-screen banner management and drag-and-drop curation of content rails.
- Manage the web portal and landing page in Next.js, TypeScript and Tailwind CSS: built deep links through Android App Links and iOS Universal Links with store fallback, on a static site served from AWS S3 and CloudFront.

Zyrilo | Lead Developer | Creator-led food discovery app, in development | Sep 2026 - Present

- Building a React Native and Expo app (80+ screens) and admin panel (50+ screens) where creators post food reels, users claim restaurant offers and restaurants pay for the visits a reel drives.
- Designed a Node.js and TypeScript modular monolith: double-entry PostgreSQL ledger, MongoDB read models fed by a transactional outbox, Redis caching and search across 9 Indic scripts.

Bookiee | Lead Developer | Bus booking marketplace | Delivered in 3 months

- Built a React Native passenger app, React operator and admin portals and a website on one Node.js and PostgreSQL API with an OpenAPI contract: 110+ screens and 160+ endpoints.
- Prevented double-booking with Redis seat holds and a per-trip row lock; added a visual bus-layout designer, Razorpay payments, SMS tickets and a tracked refund queue.

Restaurant Delivery Platform | Lead Developer | Five connected apps for one restaurant | Delivered in 2 months

- Built React Native customer and rider apps, a customer website, kitchen portal and owner panel on one Node.js and PostgreSQL API: 130+ screens, 150+ endpoints and 7 user roles.
- Shipped Socket.IO live tracking, Google Maps road-distance fees, pickup and delivery codes and cash settlement.

Bidyasagar Classes | Lead Developer | Live EdTech coaching platform | May 2026 - Present

- Took over a live React, Node.js and PostgreSQL platform with 3 portals, 100+ screens and 400+ API routes.
- Maintain live classes auto-allocated from a Zoom licence pool, a negative-marking exam engine with 6 question types and a referral wallet; added RBAC, per-student Zoom links and the student app API.

Vedrastores | Sole Developer | Live multi-vendor e-commerce ecosystem for Kenya | Delivered in 4 months

- Shipped 4 Next.js web platforms (marketing, buyer, vendor, admin) and 2 React Native apps; buyer app on Google Play.
- Integrated live M-Pesa (Daraja) payments across web and mobile on Firebase, with AWS S3 and CloudFront for media.

FREELANCE PROJECTS

QCS Website and CMS | Full-Stack Developer | MERN stack, for QCS Software Company | Delivered 2026

- Built a 32-page corporate website, careers portal and blog on a 12-module admin CMS with React, Node.js, Express and MongoDB, so the client's team edits every page, job post and article themselves. JWT auth, Cloudinary uploads.

PERSONAL PROJECTS (UI BUILDS)

Wayline | Bus-booking brand site with a live seat-lock demo; profiled and cut compositing layers from 444 to about 104. React 19, TypeScript, GSAP, Lottie. bus-booking-murex.vercel.app
QuickBite | Food-reels landing page with 16 animated sections. Next.js, TypeScript, GSAP. quickbyte-xi.vercel.app
Rathaworks | Web studio site with a 3D hero and 6 case studies. Next.js, React Three Fiber, GSAP. work.rasmiranjan.in

EDUCATION

Master of Computer Applications (MCA) | Biju Patnaik University of Technology, Rourkela | 2023 - 2025 | 84%
Bachelor of Computer Science | Ravenshaw University, Cuttack | 2020 - 2023 | 88%
Class XII, Science | Vyasanagar Autonomous College, Jajpur Road | 2018 - 2020 | 85%

CERTIFICATIONS AND ACHIEVEMENTS

Generative AI Fundamentals, Chai Code, May 2026 | Full-Stack Web Development (MERN), Chai Code, Jul 2025
Frontend Development, Meta via Coursera, Oct 2024
2 state-level hackathons | Tutored 20+ peers in CN, OS, web dev | Led 3+ campus events | Languages: English, Hindi, Odia
